Installation

The Installation Instructions can be found on the **Knowledge Base**. You may find the installation files on the **Xinet Portal**. RH9 requires one additional pre-installation step which is described in this document. If you encounter any issues, please contact our **support team**.

Server Prerequisites

- SERVER should be a Red Hat Enterprise Linux (RHEL) Server 64-bit version 9.0 or above
- Should have a valid RedHat subscription to download **coderedy** packages

Installer will download the required RHEL 9 dependent libraries and services which require patching to make them work along with XINET.
